When and Where	**Role**
Date: January 27, 2015	**Primary Facilitator:** Alex Sears
Start: 6:00PM	**Timekeeper:** Tyler Blatt
End: 8:30PM	**Minute Taker:** Judson August
Room: GH 275	**Attending:** Alex Sears, Tyler Blatt, Drew Hearing, Olga Maneylova

1.   Objective

Go over the Vision and Use Case Model. Make sure it is all completed. Send these to Professor Li. Also, make the project slideshow for the presentation on Thursday.

2.   Status

All pieces for the Inception step are finished. They will be sent off to the professor for approval and then added to the Github repo.

3.   Discussion

3.1 The Vision was fine. It was finished before the meeting and seemed fine.

3.2 The Use Case Model was finished during the meeting. Everyone helped complete it.

3.3 We came up with the name for our project: Project Desperado

4.   Wrap Up

Things are moving forward in the project. We will make edits as necessary when we get feedback from the professor. Then we will start immediately on the next step of the project, which means we will be able to start developing it.
